PHP developer

About me

I am programmer with commercial experience in developing projects in PHP. Has worked on various projects, ranging from landing pages and online stores to complex platforms, such as those for hosting online conferences. Follows OOP principles and adheres to PSR standards in development.

Work experience

PHP-developer (FullStack/WordPress) · GetMount · Chişinău

December 2022 - Present · 2 years 5 months

During my time at the organization:

- Developed an online class booking service, tadrees.net (WordPress).
- Created an online store for selling stock content, dipico.ru (WordPress).
- Participated in the maintenance of the pushly.de e-commerce project (Laravel/JTL).
- Developed the dadadam/wptoolkit library (Composer dev version) to simplify WordPress plugin development.
- Deployed and configured LEMP/LAMP environments on Ubuntu using SSH.
- Used Git and GitHub while working on projects.

Skills: PHP Frameworks, Vuejs, Composer, SSH, Apache, Restful APIs, Nginx, Linux Servers, Git, JTL, WordPress, MySQL, PHP, CSS, HTML

PHP-developer (FullStack/WordPress) · BrandPro · Saint-Petersburg

December 2020 - December 2022 · 2 years 1 month

During my time at the organization:

- Maintained the pharmprosvet.ru online event platform for medical professionals.
- Developed a plugin for high-load online conferences with functionality for statistics collection, chat, and NMO.
- Created a plugin for automatic PDF certificate generation.
- Maintained an ERP system based on ClientBase.
- Developed integrations for Yandex Metrika and Google Analytics using GTM and Google BigQuery. Also created reports in Google Data Studio.

Skills: Composer, JavaScript, Google Tag Manager, Restful APIs, Google Data Studio, Apache, Google Analytics, WordPress, BigQuery, MySQL, PHP, CSS, HTML

System Administrator/Developer · Federal State Educational Institution of Continuing Professional Education "St. Petersburg Postgraduate School of Nursing" · Saint-Petersburg

September 2016 - December 2020 · 4 years 3 months

During my time at the organization:

- Maintained websites built with SBuilder, Joomla, WordPress, and Instant CMS.
- Created integrations between online forms and the "Client Accounting" CRM using the QuickForm plugin and VBS.
- Developed a plugin (PHP/MySQL) and an application (C#/MSSQL) for configuring automatic integrations of online forms.
- Maintained and deployed Windows Server 2008/2012 environments using RDP, Hyper-V, Web servers, and Active Directory.
- Configured advanced video conferencing setups using OBS, XSplit, IP cameras, and PTZ.

Skills: WordPress

Web-master · T-AVTO SPB · Saint-Petersburg

December 2014 - May 2016 · 1 year 6 months

During my time at the company:

- Developed and maintained an e-commerce website using PrestaShop CMS.
- Worked on frontend development and module creation.
- Managed SEO optimization and supported the website's promotion in search engine results.

The company has since ceased operations, but the websites have been preserved in web archives.
